4	Venugopal Naidu Income Tax Officer	Nominee of Income Tax, Pune
5	Ms. Samiksha Surve, Supdt.	Nominee of Customs, Pune

Table Agenda Item No.01: Application made by M/s. Datwyler Pharma Packaging India Pvt. Ltd.

The unit's request for approval of additional services viz. "Rubber Product Manufacturing Services" falling under SAC code No. 998851 was discussed in detail.

Representative of the unit informed the Committee, that they intend to send their final product viz. Rubber Stopper for the purpose of Gamma radiation or Irradiation / sterilization, to the job-worker in order to remove all kinds of microbes / bacteria etc. present on the product, if any, and the said product after passing through the necessary treatment will be returned back to the unit. The process done at the job-worker end will not lead to any change in the nomenclature / shape / specification or character of the product and also the process will not lead to any wastage, except for the fact that the product is sterilized and can be used by pharmaceutical companies for storing their medicines, or as the case may be.

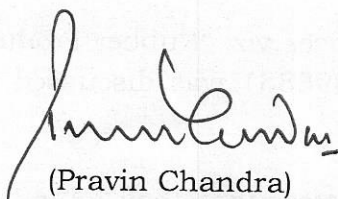

The Committee observed that the vendor / job-worker providing the services of Gamma Irradiation on the rubber product in case of this unit may also be providing this service to other products of other Industries falling under different chapter heading. Hence the Committee held the view that the service provided by the job worker is not actually related to rubber product manufacturing but appears to be falling under a general or broader category and not limited to a specific product description.

Hence, after deliberation, the Committee deferred the proposal and directed the unit to resubmit the proposal under correct category of the services. The Committee also directed that the Specified Officer to verify the same and give opinion on classification of such service.

Meeting ended with a vote of thanks to the Chair.
