Approval for Broad banding of additional services (stand alone testing) to their existing letter of Approval as detailed below :

| Approved authorized operations  | Proposed (additional) authorized operation for broad banding |
|---|--|
| Information Technology and Information Technology Enabled Services including Research Technology Development Service, Engineering Design Development Service and Testing Validation Service | Technical Testing and Analysis Services (CPC Code 8676)      |

The unit has submitted that following stand alone testing is proposed to be provided by them from their present setup

| Type of Service                         | Type of Testing to be provided |   |
|---|--------------------------------|---|
| Technical Testing and Analysis Services | 1                              | Performance Testing   |
|   | 2                              | Endurance Testing   |
|   | 3                              | Cyclic Pressure Testing   |
|   | 4                              | Fatigue Testing   |
|   | 5                              | Cavitation Testing  |
|   | 6                              | High Temperature Testing  |
|   | 7                              | Temperature Rise Testing with 50Hz/60Hz                             |
|   | 8                              | Continuous Pressure Testing   |
|   | 9                              | Burst Test  |
|   | 10                             | Impact Test   |
|   | 11                             | Impulse testing   |
|   | 12                             | Measurement testing   |
|   | 13                             | Metallurgical Analytics   |
|   | 14                             | Tear Down / Product Analysis  |
|   | 15                             | 3D Printing feasibility / Analysis                                  |
|   | 16                             | Electromagnetic Interface and Electromagnetic Compatibility Testing |

|  |    |   |
|--|----|---|
|  | 17 | Tripping Characteristic Testing                   |
|  | 18 | Electrical Endurance and Overload Conditions Test |
|  | 19 | High Voltage Testing                              |
|  | 20 | Contact Resistance Measurement                    |
|  | 21 | Insulation Resistance Testing                     |
|  | 22 | Thermal Cycle Test                                |

**(A) Relevant Provisions: -**

As per First Proviso to Rule 19(2) of SEZ Rules,2006

*“PROVIDED that the Approval Committee may also approve proposals for broad banding, diversification, enhancement of capacity of production, change in the items of manufacture or service activity, if it meets the requirements of rule 18”.*

**(B) Other Information: -**

- (a) LOA No. Letter of Approval No. SEEPZ/MTDCCL-SEZ/EIIC LLP/32/2015-16/19441 dated 22-12-2015
- (b) Date of Commencement : 08-04-2016
- (c) Validity of LOA : 07-04-2021
- (d) Location of Unit : Office Building B6, Lab at S1 and S2, Magarpatta City SEZ, Village Hadapsar, Tal. Haveli, Pune 411 013.

(e) The unit has submitted the following documents along with the application:

- 1. Copy of initial LOA dated 07-09-2018 (after updation)
- 2. Details of Stand Alone Testing and their description proposed to be provided.

**(f) The unit has submitted that there will no change in Export Projection or NFE for the remaining Block period of the LOA, as these additional services are not likely to bring any incremental revenue, it will only partially offset the reduction in revenue estimated on account of**

- 1. They are selling Hydraulics business globally to Danfoss and the transaction is likely to close in Q4 of this year; thus, engineering center of EIIC LLP would no longer be required to work on Hydraulics products after the transaction is complete;**
- 2. A dip in our revenue is forecasted on account of COVID-19 situation as well**

**ADC Observation/Recommendation: -**

- Proposal for broad banding of additional services (testing service) without change in projection submitted by M/s Eaton India Innovation Centre LLP may be considered under Rule 19(2) of SEZ Rules, 2006.
