No. SEEPZ-SEZ/EMS/GC/Social Activities/13/2015-16

14th October, 2015

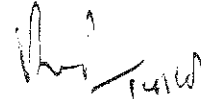

CIRCULAR-31 /2015-16

Sub: Diagnosis of Cardiac Diseases.

M/s. Everist Genomics India (P) Ltd., propose to conduct a diagnosis of Cardiac disease for SEEPZ Employees. This diagnosis will detect the early symptoms of cardiovascular disease even before the change in cholesterol levels and blood pressure levels. This equipment is designed by US based company named M/s. Everist Genomics Inc. is unique for measuring the early stiffening of arteries, which eventually reduce the blood supply to vital organs of our body. Early detection will be able to cure disease.

They will be charging Rs. 1125/- per person which will include entire package of diagnosis test, two reports, diet and exercise plan and individual report interpretation and consultation.

The units are requested to circulate the above details among their employees and inform names of interested employees to the undersigned latest by 30th October, 2015.
