F. No. SEEPZ-SEZ/Misc/227/2013-14

13566

Dated: 17 /11/2014

**Public Notice No. 15/2014**

The Reserve Bank of India has developed a comprehensive Centralized IT System called 'Export Data Processing and Monitoring System (EDPMS)' under the new system, The export data will auto flow from the multiple primary sources (Customs/SEZ/STP) to RBI and thereafter, pushed by RBI to the AD banks further follow up with exporters. It would ensure enforcement of laws relating to export, reduce duplicate reporting to multiple agencies, and improve customer service. It would also ensure effective follow-up of large value transactions/ transactions of serious nature. The new system will facilitate the banks to report all the returns through a single platform which would reduce the reporting burden of Authorized Dealer banks.

The testing of transmission of data between RBI and SEZ (NSDL) has been completed. Accordingly, it has been directed that Software exporting Units shall discontinue submission of Softex Forms meant for forwarding to RBI and for record of the office of Development Commissioner. However, they shall continue submitting copy of Softex Forms meant for AD Banks to be submitted by the concerned Unit, which shall be taken back by the Unit after endorsement by competent authority.

This issue with approval of the Development Commissioner, SEEPZ SEZ.

**P.S. Raman**  
Joint Development Commissioner  
SEEPZ- SEZ
