2) M/s. Renishaw Metrology System Pvt. Ltd., Pune.

M/s. Renishaw Metrology System Pvt. Ltd., Pune submitted letter dated 25.02.2014 for inclusion of additional items viz. Vacuum Casting Machine under Broad Banding facility.

The applicant company stated that the proposed item is a new product and does not have any Backward-forward linkage to the existing items permitted in LOP and production process is not similar to existing activity.

The applicant further stated that Vacuum Casting Machines are used to make high quality plastic parts that closely replicate the performance attributes of injection moulded parts, without the associated long lead times and process overheads. It is useful for making prototypes and low volume functional plastic components. Typical application include consumer products, automotive lenses & under-bonnet components, trim and interiors, white goods, housing and enclosures, scientific and healthcare products for a diverse range of industries and field. He stated as a result of addition of this item, the proposed FOB value of exports and NFE would increase as follows: -

(₹ in lakhs)

	Existing	Revised (Existing + Proposed)
FOB	42,402	48,597
NFE	10,822	36,381

He said that the manufacture of the item is not an import intensive activity and the unit has export orders for the item and has the expertise to manufacture the Vacuum Casting Machine.

**Decision:** - Considering the justification stated by the unit and the enhancement in FOB value of exports and NFE envisaged, the proposal was approved.
