Consultants are requested to note that the maximum permissible file size for uploads on the e-procurement portal is 100mb. However, considering that files pertaining to the design presentations etc. in the appropriate resolution could be larger in size, consultants may upload such files in a cloud drive and hyperlink the same in their technical proposals. Please note that the drive should be easily accessible without the need to register or sign up on the platform; ensuring accessibility would be the consultant's responsibility.
