**L. Marketing/ Buy Back Plan :**

The applicant has mentioned that for marketing of services from the proposed SEZ Unit, they would set up dedicated marketing team who will travel across the globe and generate business. Further, they are in discussion with various international customers and are in final stage of negotiation however without having any approval for setting up of SEZ unit they are not able to execute any written agreement.

**K. Profile :**

The applicant in their Project Report has stated as under:

- "UPL Limited" is a global generic crop protection, chemicals, and seeds company, headquartered in India (Mumbai). It is engaged in manufacturing of wide range of pesticides (technical), intermediaries of pesticides and other inorganic chemicals was incorporated in January 1985.
- They are engaged in both agro and non-agro activities. The agro-business is the primary source of revenue and includes manufacture and marketing of conventional agrochemical products, seeds, and other agricultural-related products. The non-agro segment includes manufacturing and marketing industrial chemicals and other non-agricultural products such as fungicides, herbicides, insecticides, plant growth regulators, rodenticides, industrial & specialty chemicals, and nutrifeeds. With a strong presence in 138+ countries, UPL is the 5th largest agrochemical company in the world and a global leader in food systems, where their major agricultural market and beneficiaries are farmers across Asia, Africa, Latin America, Europe and North Africa.

- c. UPL is a global leader in crop protection by providing total crop solutions, reshaping the industry with OpenAg- their advance collaborative model, with which they are aiming to transform agriculture. They contribute toward the harmonious and sustainable development of society while aiming to be a catalyst for a more equitable and inclusive world. This is through designing sustainable solutions for securing the long-term food supply.
- d. Vision:
- e. Their vision of developing a resilient food system, coupled with enhanced capabilities, has driven an innovation-centric culture at UPL.
- f. Enabled them to increase accessibility to new and innovative technologies for all farmers.
- g. With their "Open Innovation" initiative which is an emerging solution to optimize farmer efficiencies, they have been able to augment their R&D capabilities to introduce sustainable agricultural solutions, offering a myriad of sustainable products to farmers.
- h. Their Company is also registered at Arshiya SEZ as a Trading unit to provide the services to their esteemed customers.
