The Unit vide their letter their letter dated 31.05.2023 informed the reasons for decrease in exports as compared to the approved projection. The reasons are as follows:

"We would like to inform your good office that we could not achieve exports as compared to projected figures due to COVID 19, our exports were reduced comparatively and since we are into Testing & Validation services, our contract with client is of milestone in nature, hence generally once Testing and Validation is completed, our contract does not get renewed & therefore considering this we could not achieve exports as it was projected. Also we have projected exports on conservative basis which is achievable to us considering business in hand for next block of 5 years."
