OFFICE ORDER NO. 04/2022

Standard Operating Procedures for SDF-VIII units

This is with reference to the allotment of space in SDF-VIII, the newly constructed pre-fabricated building. It is to convey that all Unit holders are requested to abide by the following conditions:

- (i) The load bearing capacity of the building does not suit to requirement for additional load weight of strong room, which is mandatory for insurance requirement as mentioned in authorized guidelines for strong room.
- (ii) Casting/burning furnaces and metal refinery process are not permitted due to hazardous chemical fumes.
- (iii) Processes involving acidic fumes like aqua-regia etc. are not permitted.
- (iv) Machines creating vibrations like scrubber etc. are not permitted.
- (v) Other miscellaneous flashing and acid boiling machines in the jewellery sector and other similar machines in any other sector are not permitted.
- (vi) The said building is designed not to have any scrubbers or compressors machinery or any other similar machinery.
- (vii) The maximum load bearing permitted is 700 kg/Sq. mtr. (65 kg./Per sft.) No activity/storage above this limit is permissible.

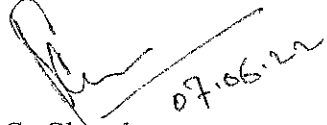

For compliance of the as are, following guidelines to be followed /ensured by Specified Officer & Security Officials:

- a) Only one gate to remain open for movement in and out of the building at a time.
- b) Trained guards to be posted at the open gate to check the material being taken inside the building and to ensure that no machines/material to be allowed inside the building which may damage the pre-fabricated structure of the building
- c) It will be ensured that the conditions of the undertaking submitted by the applicants are complied with.
- d) Scrap & Other material being carried out of the building to be checked for chemicals and other debris produced during processing.

In order to monitor the above guidelines, following committee has been constituted:

- | | |
